Activity **Reflective Writing**

You may use this line in any part of your story:

I knew this time around that it was more about collective health, safety, and well-being rather than individual liberty.

In your writing:

- Include a plan which has basic details of your writing.
- Include at least 3 ideas.
- Begin with an introduction that will be attention-grabbing.
- The content could explain why this time it was not about individual freedom but thinking about everyone's health, safety and well-being.
- The above point will highlight your ability to be considerate and practical in challenging situations.
- The conclusion could bring together all the points and your learning experience.
