

→ **Attempt the activity given below in your Writing Book.**

Activity

Reflective Writing

Describe your experience of the pandemic in the last few months as an opportunity to see things differently. You **may** like to begin with the line:

I've been at home for _____ days since schools were closed due to the pandemic.

A guide for your writing:

- Include a plan that has basic details of your write up.
- Includes at least 3 ideas.
- Begin with an introduction that will be attention-grabbing.
- The content could follow, for example, a time-pattern with describing the impact of the experience.
- The above point will highlight your ability and personality to handle situations.
- The conclusion could bring together the all the points and your learning experience.
