**Forests**

Forests are important for animals and us. They give us food to eat. They give us many fruits and vegetables. Big and small animals live in forests. Forests also give us medicines. We should save forests and stop cutting the trees. Humans are cutting trees for tables, chairs and huts. We should plant more trees. Trees provide us oxygen to breathe. No forests mean no greenery and no food. Forests are our best friends. They are also best friends of animals.
